able to be everywhere at the same time.

Russell

"God divides the [stillness](#) of His **omnipresent** [Oneness](#) into [mated pairs](#), and simultaneously [multiplies their power](#) to simulate His [omnipotence](#) and [omniscience](#) through fast [centripetal motion](#). He then unites His [mated pairs](#) to simulate His [Oneness](#), and simultaneously [multiplies their speed](#) of [centrifugal motion](#) until they [disappear](#) into His **omnipresent** [stillness](#)."
