

13.10 - Rotation Quotes from Keely and His Discoveries

See sections [1.5 - Fractal Structure of Matter](#) - [1.21 - It Really Is a Musical Universe](#) for greater detail on [Keely's Triplet Morphology](#).

" ..[vortex](#) action is induced by differential conflict between the low and high [tensions](#).." [Keely](#)

"Question asked in [Clerk Maxwell's](#) memoirs: "Under what form, right, or light, can an [atom](#) be imagined?" [Keely](#) replies, "It eludes the grasp of the imagination, for it is the introductory step to a conception of the eternity of the duration of [matter](#). The magnitude of the [molecule](#), as compared to the [interatom](#), is about on the same ratio as a billiard ball to a grain of sand; the billiard ball being the domain wherein the triple [inter-molecules](#) rotate, the [inter-molecules](#) again being the field wherein the [atomic triplets](#) sympathetically act, and again progressively, in the [interatomic](#) field, the first [order](#) of the etheric triplets begins to show its [sympathetic inreach](#) for the centres of [neutral focalization](#). It is impossible for the imagination to grasp such a position. [Interatomic subdivision](#) comes under the [order](#) of the [fifth dimensional space](#) in [etheric condensation](#). Atoms and corpuscles can be represented by degrees of [progressive tenuity](#), as according to [progressive subdivision](#), but to imagine the ultimate position of the [atomic](#) alone would be like trying to take a measurement of immeasurable [space](#). We often speak of the borders of [infinite](#). No matter what the [Outreach](#) may be, nor how minute the corpuscular [subdivision](#), we still remain on the borders, looking over the far beyond, as one on the shore of a boundless ocean who seeks to cross it with his gaze. Therefore, philosophically speaking, as the [atom](#) belongs to the infinite and the imagination to the finite, it can never be comprehended in any form or light, nor by any right; for in the range of the [imagination](#) it is as a bridge of mist which can never be crossed by any condition that is associated with a visible [molecular mass](#), that is, by [mind](#) as associated with crude [matter](#)."
