

18.17 - Mind Recordings

"Each entity makes a record upon [time](#) and [space](#), through the very activities of that stylus, the [mind](#)." Cayce (1885-1)

"For [thoughts](#) are things; just as the [Mind](#) is as concrete as a post or tree or that which has been molded into things of any form." Cayce (1581-1)

"All [matter](#) is but electric wave pulsations of His [thinking](#), recording the [idea](#) of His [thinking](#) in forms which appear, disappear and reappear to synchronize with the cyclic sequences of His concentrative-decentrative and reconcentrative thinking which characterize the entirety of [effect](#) in this electric universe of His creating.

"Godâ€™s eternally creating universe is the result of His eternally continuous [meditation](#)."

"You create your universe in the same manner and by the same processes and method under control of the same law. There is no other manner, nor process, nor method, nor law. Your universe of what you are is your [Mind idea](#), your [Soulâ€™s desire](#) manifested into the material image of your [thinking](#). It is the result of your [meditation](#)." Walter Russell, ([Home Study Course](#), Unit One, Lesson 2.2)
