

# Chapter 4 - The True Nature of This Mind and Motion Universe - part VI, page 86

## VI

All **motion** in all this universe is based upon the fact that the **sexless** condition of **stillness** has been divided into two sexed

The **zero universe** divides its **stillness** into sex-divided pairs of oppositely extended spiral motion for the purpose of uniting to create more sexed pairs.

conditions. The division begins its [tension](#) at the [cathode](#) and multiplies that [tension](#) as the division extends from the [cathode](#) toward the [anode](#). [Electricity](#) thus creates tensions and strains, which we call [electric potential](#). [Electric potential](#) is the measure of [compression](#) at any one point in the universe. [Gravity](#) is evidenced wherever [compression](#) from without is maximum. [Gravity](#) is a [focal point](#) from which [matter](#) desires to [explode](#) outwardly. [Gravity](#) does not pull inwardly from within as the deceptive [illusion](#) of Nature would have you believe. Neither is it the attractive force which Newton's senses were deceived into believing, for a [center of gravity](#) is a point of maximum [electric potential](#). [Gravity](#) never changes. It is never more or less. It is maximum everywhere. It is [electric potential](#) which changes by multiplying and dividing the measure of power it is able to express by

drawing it from its [gravity center of control](#). It is like the power of a man who can draw but little from the great [omnipotence](#) which centers him, as compared with another man whose [knowledge](#) enables him to draw more of it. [Electric potential](#) is the [tension](#) caused by the [electric division](#) of the ONE universal condition of [rest](#) into two unbalanced conditions of [motion](#).

[Polarity](#) and [sex](#) are one. The two poles which unite are [male](#) and [female](#) opposites in all [matter](#). The [idea](#) that [sex](#) is solely a characteristic of organic bodies is not a true concept. [Sodium](#) and [chlorine](#) are as [male](#) and [female](#) as man and woman are [male](#) and [female](#). Every [particle](#) of [matter](#) in the universe is either [male](#) or [female](#), and these pairs are electrically projected together in the [ratios of force](#) which [Newton](#) gave to the [acceleration](#) of [gravity](#), and upon a multiplication of [speed](#) and [potential](#) principle, which [Einstein](#) gave in his [Equation of 1905](#).

If, therefore, all [motion](#) is solely for the purpose of either seeking [sex union](#) or [sex division](#), why should we not immediately remodel our [thinking](#) to conform with Nature's processes and now think of our divided, double Pressured universe as an electrically sex conditioned one?

Illustrating the Father-Mother Principle of building bodies by dividing light into polarized units, and reproducing bodies by uniting two oppositely projected units into one by centripetal compression. POLARITY and sex are ONE. Sex and electric potential are ONE.
