

Cosmic vacuum tube

Russell

"Your [electrically compressed body](#) is a [receiving station](#) for [reborn](#)ing the dying [sound](#), just as a cliffside is a [receiving station](#) for [reborn](#)ing the [sound](#) as an [echo](#). An [electronic tube](#), and a cliffside, are alike in this respect. That also means that all [matter](#) is but [thought-recordings](#), for all [matter](#) is [electric motion](#). It necessarily follows that your [body](#) is but an [electric thought-record](#) of your [Mind-thinking](#), which is operating within the **Cosmic vacuum tube** just as long as you can keep it [electrically vitalized](#) sufficiently to create the [image of you](#) which your [thinking](#) is making."
