Part 1

1 "Next come [Æther](#) and [Chaos](#), Spirit-Matter, the Bound and Infinity of [Plato](#) (Proc., Tim., ii. 117), the [Purusha](#) - [Prakriti](#) of the [Sâ€™nkhya](#). [Orpheus](#) calls this [æther](#) the Mighty Whirlpool (Simplicius, Ausc., iv.123); called Magna Vorago by Syrianus (Metaph., ii.33a). And Proclus (Tim., ii.117), speaking of Chaos, says: 'The last Infinity, by which also Matter is circumscribed - is the Container, the field and plane of ideas. About her is "neither limit, nor foundation, nor seat, but excessive darkness".' This is the [Mâ;laprakriti](#) or Root-Matter of the [Vedâ€™ntins](#), and [Æther](#) is the so-called first [Logos](#), [æther](#) - Chaos being the second. 'And dusky Night comprehended and hid all below the [Ether](#); ([Orpheus](#) thus) signifying that Night came first.' (Malela, iv.31; Cedrenus, i.57, 84.) Then comes the Dawn of the First Creation. In the Unaging Time, Chaos, impregnated by the whirling of [Æther](#), formed itself into THE COSMIC EGG Apion (Clement, Homil., VI.iv.671) writes that: '[Orpheus](#) likened Chaos to an egg, in which the primal "elements" were all mingled together. . . . This egg was generated from the infinitude of primal [matter](#) as follows. (The first two principles were) primal matter innate with [life](#), and a certain [vortex](#) in perpetual flux and unordered motion â€œ from these there arose an orderly flux and interblending of essences, and thus from each, that which was most suitable to the production of life flowed to the centre of the universe, while the surrounding [spirit](#) was drawn within, as a bubble in water. Thus a spherical receptacle was formed. Then, impregnated in itself by the divine [spirit](#) which seized upon it, it revolved itself into manifestation - with the appearance of the periphery of an egg.' (Meade, G.R.S., [Æther](#), Chaos and Night)

2 "Radiation is the normal death principle. Every thing in Nature dies normally by slowly radiating its heat. Radioactivity is the explosively quick [death](#) principle. Radioactivity is manâ€™s discovery of how the human race can die quickly, and not be able to propagate its kind for many long centuries.

There is your complete answer in a few words. MULTIPLIED [DEATH](#) is the new boon which this age of man believes he is giving to the furtherance of [life](#). Naturally you do not understand it, but instinct and intuition in you are strong enough to make you fear it. The reason you do not understand it is because you are not yet aware of what makes things live and what makes them die.

The entire answer to this supreme question lies in knowing exactly WHAT MAKES BODIES LIVE and WHAT MAKES BODIES DIE. This cannot be briefly told. In telling it we must tell you how [God](#) constructs and dissolves matter electrically. If answered briefly you would not comprehend it. The greatest minds among men have been trying to discover this life principle for centuries. When we do fully answer it for you and all mankind, you will also fully comprehend your universe and all of its mysteries. The telling must be a step by step process, however, and must keep in mind the purpose of this book, which is to dynamically explain in convincing language, and undebatable postulates, that the price man will pay for the use of [atomic](#) energy is his own inevitable extinction." Russell, [Atomic Suicide](#), Chapter 1
