

New Age

There are several definitions of this term and event. The **New Age** is a new era of [peace](#) and a closeness to [God](#) or Nature where individuals [awaken](#) to or remember their [Whole Mind](#). It is an age of [Oneness](#) and [harmony](#) with the [forces of Nature](#). It is more of a [New Era of Consciousness](#) than a **New Age**. We see this happening with the advent of the Global Internet.

The Dawning Transition of Man

"The **new age** of cosmic man which is now unfolding for the saving of mankind from self-suicide by the barbaric dealings of man with man is a transition from believers in a far-off [God](#) of [fear](#), whom they [fear](#), to knowers of a universal [God](#) of [Love](#), Whom they [love](#).

"Those cosmic ones who KNOW [God](#) are the cosmic thinkers, inspired geniuses and illumined mystics who know [God](#) within them and see [God](#) everywhere. These are the ones who down the ages have uplifted man gradually by bringing the beauty into the world which has gradually given man his culture and his ethics.

"These are the ones who will unify mankind through their [knowing](#) to end this babel of tongues of many religions, and bring into being the ONE [religion](#) of the ONE [God](#) of [Love](#).

"This now-ending Barbaric Age is peopled with GOD-FEARING MEN.

"The dawning Cosmic Age is to be peopled with GOD-LOVING MEN.

"Before this approaching age of [Harmony](#) can arrive, the [knowledge](#) of [God](#) must cover the [earth](#) as the waters cover the beds of the seas. Suffering humanity must be taught that "the existence of 'The [First Cause](#)' is a necessity of æhuman [thought](#)," and that the only cure for sorrow lies in the helpfulness and the hopefulness of the Gospel of the [Son](#) of [God](#). Other religions tell of men stretching out their hands to [God](#) for help. The [Christian religion](#) tells of [God](#) reaching out His hands to man.

The [keynote](#) of Christ's Gospel is in the Fatherhood of [God](#) and the brotherhood of man; and this is the [keynote](#) which the revelation of [Sympathetic or Spiritual Physics](#) is about to sound. It will awaken a sleeping world to that "[knowledge](#) of [God](#)" which is (as defined by [Pythagoras](#)) "[Truth](#) clothed with [light](#), or absolute verity." The Coming Revolution of Consciousness

"Each [being](#) comes to the point of their own [realization](#) ([Awakening](#)) in unique ways and by unique combinations of experience and [wisdom](#). The point is often approached and rejected many times before the actual crossover acceptance happens. It requires a great deal of courage to crossover to a new and different perspective of the [life](#) experience. It requires releasing well-learned lessons and entering into a completely new [consciousness](#) of what [reality](#) truly is. For those who are on the planet [Earth](#) now, the deceptions are of such [magnitude](#) and the [truth](#) of what each being is, so well hidden, that the acceptance of the [truth](#) by the masses is such a gigantic leap in [consciousness](#) that it appears to be impossible that it could possibly happen. Yet, happen it must if this segment of the human race and this jewel of a planet are to survive." Anonymous, [Becoming](#)

Uranus in Aries: The Revolution of Consciousness

The greatest revolution in human history begins March 11th, 2011 with the planet [Uranus](#)' entrance into the constellation of Aries. This is a pinnacle moment in human history that will come to be known as the Revolution of [Consciousness](#).

Unlike revolutions of old, this [revolution](#) will be centered in the hearts and minds of the men, women, and children that inhabit the planet Earth. What is about to unfold is nothing less than the most brilliant period of not only our lifetimes, but of all lifetimes - and it starts in just a few short weeks!

The first 'shot' of this [revolution](#) will be a metaphysical one, fired from a Divinely [awakened quantum](#) gateway in the [heart](#) of the Milky Way Galaxy. This gateway will unleash powerful, higher-dimensional energy that has never before been felt on Earth. This radical new energy will totally immerse the planet, affecting an instant [evolution](#) of [consciousness](#) in the spiritually [awakened](#); a [quantum leap](#) of the [mind](#) that has never before been experienced on Earth.

This new level of [consciousness](#), sourced from [God](#), is of course universal in nature. As such, it will provide the foundation for the acceptance of extraterrestrial life, which brings us to a major aspect of what the upcoming [Uranus](#) transit entails: mainstream acceptance of extraterrestrial life. Humanity will soon become intimately aware that not only does extraterrestrial life exist, but it has been influencing events on Earth for quite some time. This singular aspect of the coming [Uranus](#) transit alone is enough to exact an instant, global, paradigm shift, and that is exactly the nature of this transit's energy: instant paradigm shift.

Mainstream acceptance of extraterrestrial life will instantly shatter paradigms of the past and create a new way of [thinking](#) and [feeling](#) in us all. We will no longer accept the artificially-maintained status quo that we have for

so long. Exotic new technologies will begin to go public as if a science fiction movie had become [reality](#). [Free energy](#) technology will be a major part of this, as well as revolutionary advances in medicine, agriculture, communications, computer sciences, optics, magnetics, and terraforming. This technology will transform the way we live and interact with one another forever.

The coming explosion in technology and innovation will spur levels of humanitarianism the world has never seen. A tremendous global movement to eradicate poverty, uplift the nations, and heal the ecosystems of the world will begin to manifest. Hundreds of millions of passionate, altruistic, like-minded souls will begin to connect, collaborate, and push projects to success that in years past would have never come to fruition. Imagine dormant neurons in a [brain](#), flashing into life and connecting billions of times over until the [entire mind](#) is illuminated, totally beaming with [light](#) - that is where we are going as a civilization.

I must warn that this [astrological](#) movement also signals the beginning of the greatest amount of political and economic turmoil the world has ever known. As a revolutionary [spirit](#) inflames the globe, we will experience wide-spread instability, manifesting in a variety of ways. The newly [awakened](#) society will begin to revolt in such massive ways that they will absolutely cripple 'the system.' First World nations will be swept with peaceful protests, sit-ins, and demonstrations while Third World nations will erupt with war-like violence. The world over, corrupt government agendas will come to a screeching halt by the [will](#) of the people.

Within the first year of this transit as people begin to awaken, it will become understood that the extraterrestrial elements that have been embedded deep in human society haven't been playing a positive role in our [evolution](#) as a civilization. This understanding will kindle a united, warrior-like [attitude](#) among global citizens that will serve as the most important driving factor in the coming revolution. Make no mistake that the power structure of Earth is currently 'operating from the shadows', but that the time of their authority has expired by Divine Decree and in perfect timing with Cosmic Order.

Intervention has and will continue to happen in strategic, surgical strikes that will ultimately lead to their defeat. This battle will be most intense during the summer months of 2012 as the planet [Uranus](#) squares the planet [Pluto](#). By winter of [2012](#), it will become clear that humanity is free. After December 21st, 2012, as many of the world's most infamous prophecies come to a crossroads, mankind's Golden Age will finally commence.

An aspect of [astrology](#) that I find absolutely beautiful is that as events happen on a global or macrocosmic level, they also happen on a personal, microcosmic level - in exact [synchronicity](#). This upcoming [Uranus](#) transit is no different, and soon we will all be going through our own personal revolutions, albeit in unique ways, all in accordance with God's Divine Plan for each of us. This is where the **Sacred Science of Astrology** can enlighten so brilliantly; it can identify the source and the expression of the coming revolutions in our lives, with mind-boggling accuracy.

On a cultural level people will start to openly embrace and seek out the profound [wisdom](#) of the [Occult Sciences](#), which are rooted in the higher dimensional nature of existence. People will realize that there is a hidden, perfect order to [creation](#). In times of great change, they will increasingly want to understand, at the deepest levels, exactly what their role is in this perfect [symphony](#) that they may navigate through the coming changes and manifest the highest outcomes. The best way to create personal security and abundance during the coming times will be identifying, accepting, and properly expressing one's personal revolutionary energy.

This personal revolution, which will manifest for many as the development of extraordinary, even Biblical-level [spiritual](#) and metaphysical gifts, will be the answer to all our present and future problems. It is up to each of us to totally embrace the shocking changes in order to fulfill our destinies in the coming global revolution. Those who succumb to [fear](#) and resist these changes will do so at their own peril. Those who embrace the changes will skyrocket to prominence and success. This can be a very frightening thought to entertain, which brings me to the significance of [Uranus](#) being in the constellation of Aries, the archetype of the warrior.

[Attunement](#) to archetypal energies is an extremely important concept to understand and integrate. In simplistic terms, one must 'vibe' with the virtues of the sign to manifest the greatest outcomes of the transit or placement. With [Uranus](#) being in Aries, we can manifest magnificence in our lives by cultivating and expressing bravery, confidence, fearlessness, independence, and novelty in the area of our life (and natal chart) where Aries energy

lies. This is a time where a warrior will be born in all of us, though it's up to us to decide what to do with this new energy.

As this fiery, Uranian energy blasts through the [collective consciousness](#), the values of people will be changed and elevated in an instant. The lust for the trivial will be transmuted into the yearning for [spiritual](#) and metaphysical talents. [Materialism](#) will be replaced by [spiritualism](#). The so-called celebrities of today will fade into obscurity as a new breed of celebrities, deriving their power from [spiritual](#) development and humanitarian passion will be catapulted into the limelight. These will be the heroes and heroines of the [New Age](#) that is being birthed before our eyes. (source unknown)
