## Schauberg

Therefore, if **water**, **sap** or **blood** are **over-illuminated**, over-warmed or **water** is accelerated above its **boundary velocity** by **pressure-** and **heat-intensifying techno-academic devices**, such as **steel ploughs**, **pressure turbines** and **pumps**, **pressure screws** (**propellers**), **Pelton wheels**, etc., then the **decomposive energies** mentioned earlier come to life. These **positively overcharged**, **invasive emanations** are **x-ray-like** in nature and pierce every form of **resistance**. They penetrate right through to the **negatively charged cell-nucleus** and in the surrounding growth and **life-forms** cause the **cell-nuclei** to split. There [The Energy Evolution - Harnessing Free Energy from Nature, The Biological Vacuum - The Optimal Driving Force for Machines]

## The suction turbine

The **suction turbine** (see figs. 30-33) is the most suitable device for countering this event, for it can **ur-produce** the most noble **formative and levitative energies** from **water**, which function at an **atomic** level. It builds up the **Earth's amniotic fluid**, which all today's technical, **hydraulic** and chemo- dynamic **machines**, conveyances and agricultural implements, etc. **decompose**; in particular the high-speed, **blood-of-the-Earth-centrifugating Kaplan**

turbines and **Pelton wheels**. [The Energy Evolution - Harnessing Free Energy from Nature, Cadaverine Poison in Ray-Form - Ptomaine Radiation]
