

Restore Patch

Get Back Control of Your Life

Stop feeling stressed and overwhelmed

Loved by our customers

Starting at only \$24.99

Your body will thank you

SVP has partnered with [Restore Patch](#) in Castle Rock, Colorado as a way to market our new [diagnmagnetic](#) carbon-based products. **Restore Patch** makes and markets all-natural healing and support patches that deliver sustained and steady support. Restore your life without drugs and chemicals! All with zero side effects and backed by a **100% money-back guarantee**.

Restore Patch has teamed up with [SVPwiki](#) to offer a special discount. Upon checkout, use **SVP10** to get **10% OFF your order** today.

The Science Behind Restore Patch

Everything in the universe is and has energy, including humans. As living energy, all aspects of our lives; including physical health, illness, emotions, etc. operate with unique frequencies.

Our team of scientists and engineers took these principles, which were discovered hundreds of years ago, and used today's technology to create Restore Patch.

Holistic Approach to Healing

This concept has been used in other holistic modalities such as acupuncture, reflexology, Reiki, and other Eastern-based techniques. Studies have also shown that Western medicine has long used frequency devices for recovery from injuries and surgeries.

Working at the cellular level, a resonance effect can help reduce overly excited energetic states, begin to rebalance the body, and help repair pathways. All in a safe, natural approach!

The Ingredients Inside Our Patch

Restore Patches are made here in America, with only the finest 3M hypoallergenic material and thin copper foil. They are waterproof, discrete, and have no drugs, chemicals, or extracts added to them.

Dotto Blanket 24" X 30" comes with slip cover. covers entire torso.

([click to enlarge](#))

Dotto Blanket

It is working wonderfully for me and others.

Place the blanket over the torso 'near the skin'.

Experience is showing it need not be on or touching the skin. The operating principle is diamagnetism[1] which passes through any object or material unhindered.

It works on the chromosome level, lengthening [telomeres](#), according to [relative research](#).

It is fragile so no rough handling. If any of the pieces do break or crumble it will still work ok.

I cannot stress how powerful the "Dotto Blanket" is. It has changed my life and that of others who have been using it. The reports I'm getting back are positive and very encouraging. You will feel its positive effects in 1-2 weeks but it really kicks in in 30-60 days. Wow! The thing is like a miracle.

Sincerely,

Dale

PS: Let me know if you feel any different after about a week or two.

Some effects our test group has been experiencing:

Better physical and mental balance and centeredness.

Over all general better health no matter what ailment.

Much better (more positive) mental attitude.

Stronger, sturdier.

Less pain(s).

Improved mobility and agility.

Better emotional calmness, positivity and clarity.

Sense of feeling years younger.

TESTIMONIALS

Hi Dale,

I was telling my friend Scott about the Dotto Pad and that I have more energy already. How much are they!

Schauberger

[1] "**Diamagnetism** is also known as [healing magnetism](#), [animal magnetism](#) or [mesmerism](#) — an ism that science views with disfavour. It manifests itself in a similar fashion to the pressural atomic forces that move a

dowsing rod. Like the previously mentioned [magnetism](#), this latter force can neither be measured nor weighed exactly and is hence rejected by science." [[Schauberger, Nature as Teacher](#), Volume II, pages 107-108]

[1] "This happens, because **diamagnetically** charged levitational forces come into being in a similar way as occurs in natural mixed forests, whose temperature in winter and summer constantly remains close to the anomaly zone of the interspersed water (+4°C - 39.2°F)." [[Schauberger, The Energy Evolution - Harnessing Free Energy from Nature, The Catalysts](#), pages 37-38]
