

# SOME PHILOSOPHICAL ASPECTS OF NATURAL ENERGIES

## Some Philosophical Aspects of Natural Energies

"Everything is governed by one law. A human being is a microcosmos, i.e. the laws prevailing in the cosmos also operate in the minutest space of the human being."

Viktor Schauburger, Implosion Magazine, No. 8, p.6.

"You must look at the processes of motion in the macrocosmos and microcosmos accurately, and copy them!"

Viktor Schauburger, Implosion Magazine, No. 14, p.19.

"If we wish to influence our own life in a particular direction, which is constantly threatened by the danger of the emergence of alien life-forms, and protect it from deterioration, then we must either allow Nature to rule or, if we wish to intervene, we must first acquaint ourselves with the simplest principles of life."

Viktor Schauburger, Implosion Magazine, No. 86. p.11.

"All [motion](#) consists of [two components](#). One [component](#) serves [inwardness \(internalisation\)](#) and the other [outwardness \(dispersion\)](#). Both [preconditions](#) for [motion regulate](#) the [eternal flow](#) of [metamorphosis \(panta Rhei\)](#)[1]."

Viktor Schauburger, Implosion Magazine, No. 57, p.5.

"Whoever should leave the Earth in an inward direction, enters Nirvana from which there is no return."

Viktor Schauburger, Implosion Magazine, No. 90, p.8.

[1] [panta Rhei](#): process of change, everything flows
