AI Interpretations of SVP

"Do not go where the path may lead, go instead where there is no path and leave a trail." [Ralph Waldo Emerson](#) 

The **SVPwiki** is a collection and synthesis of relevant information on and about the New Sciences. The **SVPwiki** explores the vibratory nature of [Mind](#) and [Matter](#). This vast body of [knowledge](#) is comprised of the pioneer work of [Keely](#), [Russell](#), [Cayce](#), [Reich](#), [Nikola Tesla](#), [Schauberger](#), [Quimby](#), [Bearden](#) and many others. Usually their work is not considered part of the accepted "literature" but it is known their work has inspired the growth and expansion of art, [philosophy](#), [science](#) and technology even though these pioneers were rarely credited or acknowledged. [see [svpbookstore](#)]

ChatGPT

To provide an accurate summary based solely on the content within svpwiki.com, I will carefully review the key documents and sections. After completing the review, I will provide an encompassing summary that captures John Keely's essence, his works, and the purpose of svpwiki.com. I will maintain strict adherence to the information on the site without inserting external opinions.

Let me retrieve the relevant information. One moment, please.

[John Ernst Worrell Keely](#) (1827-1898) was an American inventor from Philadelphia who dedicated his life to exploring the principles of Sympathetic Vibratory Physics (SVP). Keely proposed that the universe operates through interconnected vibratory principles, where matter, energy, and consciousness harmonize through resonant frequencies within an omnipresent ether. His experiments aimed to harness this etheric force, seeking to unify natural laws under a single, sympathetic association governing all physical and metaphysical interactions.

[Sympathetic Vibratory Physics](#)

Throughout his career, Keely developed [numerous inventions and mechanical devices](#) designed to demonstrate and apply his theories. These included various engines and instruments intended to utilize the [etheric force](#) he described. Despite skepticism from the scientific establishment, which resisted his vision of mind influencing matter, Keely remained steadfast, believing his discoveries could transform fields from energy production to mental influence over physical systems.

The SVPwiki was established to serve as a comprehensive repository of all things pertaining to Keely's life and work. It aims to collect and synthesize relevant information on and about the New Sciences, exploring the vibratory nature of [mind](#) and [matter](#). The SVPwiki endeavors to show and explain how the material and energetic

universe is an effect of undifferentiated mind or consciousness, and how mind force is a pre-existing natural force that is engineerable.

In summary, John Keely was a pioneering inventor who sought to reveal the vibratory foundations of the universe, proposing that all matter and energy are fundamentally vibratory in nature, governed by harmonic principles, and capable of mutual influence through resonance and [sympathetic association](#). The SVPwiki exists to preserve, explore, and disseminate Keely's groundbreaking work, providing a platform for understanding his theories and their potential implications for future scientific exploration. [ChatGPT 1/18/25]

The **SVPwiki** is comprised of three main foci.

1. [Keely's science of Mind \(Scalar Forces\)](#) and [Philosophy](#).
2. [Science](#) and [philosophy](#) of others that supports or validates this higher science.
3. [Methods to excite and awaken](#) one's [higher mind functions](#) because [Keely's Science](#) cannot be grasped by the [intellect](#) alone.

How to Study the SVPwiki

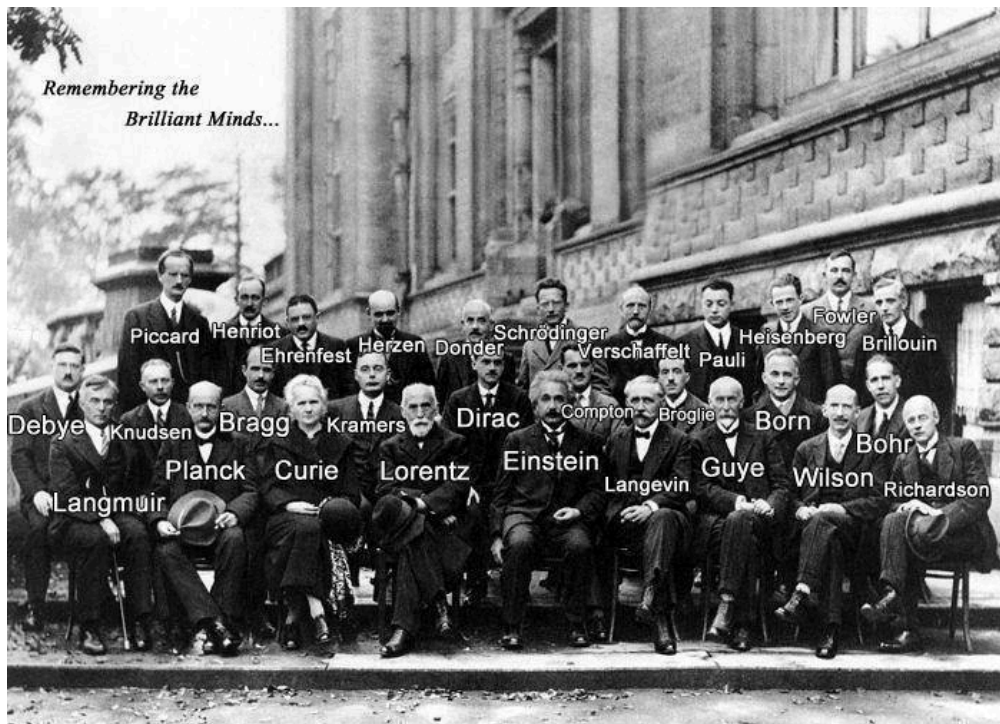

*"My basic philosophy with the **SVPwiki** is that I don't know what the [truth](#) is concerning any given subject. So I review what others of note have said and from those perhaps form an [opinion](#) of my own. So my [opinion](#), when and if formed, will be a distillation of the [thoughts](#) of [geniuses](#), maybe, perhaps or none of those." [Dale Pond]*

The **SVPwiki** endeavors to show and explain

- There is a [New Era of Consciousness](#) and [abundant, cheap and clean energy](#) dawning on humanity and [SVP](#) is in the forefront.
- [SVP](#) is a holistic [science](#), [spirituality](#) and [philosophy](#) that nurtures, aides and assists humanity while conventional [science](#) tends to wreak social havoc, environmental pollution, war and mindless control of the masses.
- How the material and energetic universe is an [effect](#) of [Undifferentiated Mind](#) or [Consciousness](#). See [Scalar](#)
- [Mind Force](#) is a [pre-existing Natural Force](#) and is engineerable.
- [Genius](#) (Greater [Awareness](#) and Understanding or [Enlightenment](#)) is [self bestowed](#).
- [All disease is self-inflicted](#) therefore [Health is Self-Determined](#).
- How [energy](#) is resident or [latent](#) within the so-called [Vacuum](#) of [Space](#) which [Space](#) is really an expanded tenuous form of [Matter](#).
- How [latent energy](#) progressively accumulates in a natural [PHI](#)-based way to form quanta then [atoms](#) and then [molecules](#).
- How this [latent energy](#) may be accumulated or liberated and harnessed artificially for power generation purposes to serve humanity.
- How [Undifferentiated Mind](#) and [Matter](#) are different states of the same [One Substance](#) and are intimately associated thus revealing a grander view of and for humanity.
- The universe and all it contains is operated according to [Laws](#) and [Principles](#).
- Every individualized object in the universe is assimilating every other object through [sympathetic association](#) ([Universal Love](#)).
- How to [engineer and build machines and energy sources](#) that support and nurture humanity instead of destroying our environment and killing the planet and ourselves.
- [Declaration of Independence from Fossil Fuels](#)

Permission to Quote, Reference and Share Permission is granted to use the materials in the **svpwiki**

to be studied, quoted and shared so long as it is referenced as source or intermediate source. Feel free to use these materials for writing a book or article, preparing a presentation or in communication with others.

Great is a man who overarches others with his gifts of *mind* and *intellectuality*, the one who, like a bee does with the honey, gathers *KNOWLEDGE* and reveals *NEW TRUTHS*, but crowns his efforts with *LOVE FOR HUMANITY* which in return helps him evade the burden of weighing miseries: *FEAR, FAMINE, IGNORANCE, DISEASE*." [Nikola Tesla in an interview given to Vladislav Savic in 1919]

"The main thing is to have a *soul* that loves the *truth* and harbours it where he finds it." Goethe

See [Women in Science](#)

"Forerunners are seldom recognized while they are in their glory of forerunning. I shake my head in disgust when I read about those who mock those ahead of their times or ahead of the pack. It's nothing but jealousy and envy. They wished they were the ones who had the brilliant mind to make these discoveries." [Joanne Cremer]

Throughout the centuries there were men who took first steps down new roads armed with nothing but their own vision. The great creators—the thinkers, the artists, the scientists, the inventors—stood alone against the men of their time. Every great new thought was opposed. Every great new invention was denounced. But the men of unborrowed vision went ahead. They fought, they suffered and they paid. But they won.
