The above chart of the Triune Polar Terrestrial Streams is accurate as far as we have been able to determine. More information and corrections will be added as they are discovered.

The Triune Polar Stream is composed of three streams or currents which are in turn composed of three other streams. The three streams are only manifest when the undifferentiated stream has been differentiated (refracted) much as a rainbow differentiates light and a music scale may be said to be a differentiated keynote.

Keely

"In reply to the question, "What do you include in the **polar forces**?" Keely answers, "*Magnetism, electricity, and [gravital sympathy](#); each stream composed of three currents, or [triune streams](#), which make up the governing conditions of the controlling medium of the universe; the [infinite ninths](#) that I am now endeavoring to graduate to a [sympathetic mechanical combination](#), will, if I succeed, close my researches in [sympathetic physics](#), and complete [my system](#). These [sympathetic streams](#) from [celestial space](#), percussing on the dense atmospheric environment of our earth, by their infinite velocities, wrest from their [atomic](#) confinement the [latent energies](#) which we call [heat](#) and [light](#)."* [KEELYS PHYSICAL PHILOSOPHY - Snell]

Question: And where do these [sympathetic conditions](#) or **streams of force** have their [origin](#)?

Answer: "All [sympathetic conditions](#), or **streams of force**, are derived (if we dare to make use of such a term in speaking of [Deity](#)) from the [cerebral convolutions](#) of the [Infinite](#); from the [center](#) of the vast [realm](#) of the [compound luminous](#). From the [celestial intermediate](#), the [brain](#) of [Deity](#), proceed the [sympathetic flows](#) that vitalize the [polar terrestrial forces](#)."
