

# WHAT IS GRAVITY

## Keely

"[Gravity is...] An eternal existing condition in [etheric space](#), from which all [visible](#) forms are condensed. It is inherent in all forms of [matter](#), [visible](#) and [invisible](#). It is not subject to [time](#) or [space](#). It is an established [connective link](#) between all forms of [matter](#) from their [aggregation](#). [Time](#) is annihilated by it, as it has already traversed [space](#) when the [neutral centers](#) of the molecules were established. It is nothing more than an attractive, [sympathetic stream](#), flowing towards the [neutral center](#) of the earth, emanating from [molecular centers of neutrality](#), [concordant](#) with the earth's [center of neutrality](#) and seeking its medium of [affinity](#) with a power corresponding to the character of the [molecular mass](#)."
