## Keely

"If the **sympathetic condition** of any **physical organism** carries a **positive flow** of 80 per cent on its whole **combination**, and a **negative** one of 20 per cent., it is the **medium** of **perfect assimilation** to one of the same **ratio**, if it is distributed under the same **conditions** to the **mass** of the other. If two **masses** of **metal**, of any **shape** whatever, are brought under **perfect assimilation**, to one another, their **union**, when brought into contact, will be instant. If we live in a **sympathetic field** we become **sympathetic**, and a tendency from the **abnormal** to the **normal** presents itself by an **evolution** of a purely **sympathetic flow** towards its **attractive centres**. It is only under these **conditions** that **differentiation** can be broken up, and a pure **equation** established. The only **condition** under which **equation** can never be established is when a **differential disaster** has taken place, of 66 2/3 against the 100 pure, taking the full **volume** as one. If the 66 2/3 or even 100 exists in one **organ** alone, and the surrounding ones are **normal**, then a **condition** can be easily brought about to establish the **concordant harmony** or **equation** to that **organ**. It is as rare to find a **negative condition** of 66 2/3 against the **volume** of the whole **cerebral mass**, as it is to find a **coincident** between **differentiation**; or, more plainly, between two **individuals** under a **state** of **negative influence**. Under this new **system** it is as possible to **induce negations** alike as it is to **induce positives** alike." [Keely - Cure of Disease]
