"Power of rotation comes on the *positive* and power of *negation*, arising when the *receptive* flows become independent of the circular **chord of resonance** (set up mechanically or otherwise) breaks up the rotational power. *Rotation* is caused by the *receptive concussion* of the *positive* and *negative* forces as they come together at the *neutral center* and as each seeks its "coincident" by harmonic *waves*, *flows* or *streams*."
