

crest

Positive [Phase](#) or [Amplitude](#) of a [wave](#) or [vibration](#).

"[Tesla](#) has reached out almost to the **crest** of the harmonic wave, leaving all electrical explorers far behind him." [Keely, [Appendix II](#)]

"One of these notes will dominate over all of the others, however, and that is the [mid-tone](#) of all the octaves. That [mid-tone](#) is the **crest** of the [universal wave](#). All effects of Nature reach a **wave-crest**. They must, or perish, as the 9th octave perishes through inability to create a wave-crest by the uniting of balanced pairs." [[Atomic Suicide](#), page 246]

"The [pendulum](#) which swings one way has its invisible counterpart which swings the other way. This drawing illustrates a sun at the **crest** of its wave which will eventually be voided by its counterpart, awaiting at its [trough](#), and reborn again from the same point. See [Fig. 66](#)." [[Atomic Suicide](#), page 257]
