

# dissipation of energy in molecular aggregation

"It is conceded by those most conversant with the nature of [Keely's discoveries](#) that he must either create [force](#), or liberate [latent energy](#). As [Omnipotence](#) alone creates, it follows that Science must be wrong in two of her most fundamental laws; one relating to the [indivisibility of the atom](#); the other to the **dissipation of energy in molecular aggregation**. This, [Keely](#) establishes in the one experiment of [disintegration of water](#), releasing from three drops the [latent energy](#) carried, during and from the time of [molecular aggregation](#), and showing a [pressure](#) of fifteen tons to the square inch. Therefore, ought it not to be conceded that it is not "a waste of time and thought " to give attention to Keely's theories, and to investigate from the standpoint of [vibratory physics](#), instead of setting limits to the operations of Nature and the power of the Almighty from the narrow platform of [mechanical physics](#)?" [[True Science](#)]
