

eccentric orbit

Russell

Fig. 46-C illustrates this principle in an [off-center flywheel](#) which will turn with uneasy and uncomfortable oscillations if slow enough, but would shake itself to pieces if turned very fast. This example is a good symbol of our present civilization, which is ever turning faster in its **eccentric orbit**, and ever approaching its [dissolution](#)." [Atomic Suicide, page 171-173]

"Scientifically, what is happening to mankind at the present time is that he has chosen to distort his [balanced circular orbit](#) around his [Creator](#). His [free will](#), supported by his [ignorance](#) of his unavoidable close relationship to [God](#), and his unawareness of his dependence on [God](#), has influenced him to choose transient [body-sensations](#), [body-comforts](#) and [body-values](#) instead of eternal [Mind-values](#). It is not possible for man to continue to distort [true circular orbits](#) of man around [God](#), by choosing **eccentric orbits** or by [unbalanced interchange](#) in his human relations." [Atomic Suicide, page 174]
