

etheric vibration

Keely

"He [Keely] defines gravity as transmittive interetheric force under immense **etheric vibration**. He continues: "The action of the mind itself is a vibratory etheric evolution, controlling the physical, its negative power depreciatory in its effects and its positive influence elevating." [Snell Manuscript - The Book, page 2]

"Taking into consideration even the introductory conditions of the etheric stage, **etheric vibration** has proved to me that the higher the velocity of its rotating stream the greater is its tendency towards the neutral center or centre of sympathetic coincidence. Were it otherwise, how could there ever be any planetary formations of the building up of visible structure? If a billiard ball were rotated to a certain velocity, it would separate in pieces, and the pieces would fly off in a tangent; but if it were a ball of ether, the higher the velocity of rotation the stronger would be the tendency of its corpuscles to seek its centre of neutrality, and to hold together." [Keely and His Discoveries] [Vibratory Physics - The Connecting Link between Mind and Matter]
