Schauberger

In a word, after decades-long [observations](#), [trials](#) and series of [experiments](#), I succeeded in getting to the bottom of this mysterious [double-game](#) of [Nature's](#) and in becoming aware of the unspeakable [ferocity](#) and purest [mother-love](#) that are united behind her [two eternally concealed faces](#). I came to recognise the [scales](#) of [fate](#) of all [life](#) upon which every [action](#) is scrupulously weighed after [death](#) and that whatever is no longer fit for the next higher [evolutionary progression](#) is once more ruthlessly [eliminated](#), it being of too [inferior](#) a [quality](#) for its [metaphysical transformation](#) into exalted [entities](#) in the [form](#) of the above [formative](#) and [levitative current](#). It has to return to greater or lesser [depths](#) within the [Earth](#) to [interact](#) with those [vibratory influences](#) in such a way that out of these [basic substances](#) new [formative](#) and [levitative energies](#) [evolve](#) for a renewed attempt to [rise](#). It is these [revitalised substances](#), whose higher [forms](#) of [cooling essences](#) possess [expanding](#) and [upwardly impelling functions](#), which make this [resurrection](#) possible. [Falling](#) and [concentrating light-](#) and [heat-forms](#) then subsequently ensure the **intermediate solidification** of 'what is destined to [vegetate](#)', namely the actual physical [form](#) of [growth](#) in which the [counter-energies](#) also reside, which initiate the further [interactions](#) that enable this **intermediate assembly** of [raw materials](#) to [grow](#), to [reproduce](#) and further [evolve](#) itself. [[The Energy Evolution - Harnessing Free Energy from Nature, The Life-Current in Air and Water](#)]

If [air](#) is [produced](#), then [water](#) is in the [minority](#). The [increase](#) in this case is the [air mixture](#) and the [4th dimension](#) that emerges from it - [motion as matter](#). Out of this [motion](#) the [5th dimension](#) ultimately comes into [being](#), i.e. the [radiant product](#), the [spirit](#). This [spirit](#) can [materialise](#) itself. Conversely, a [solid](#), [liquid](#) or [gaseous substance](#) can of course be [spiritualised](#) as well. Whether one desires to [produce](#) one or the other **intermediate product** is merely a question of the [dosing](#) of the **intermediate process**. The [dosing](#) of either [heat](#) or [cold](#). The [organ](#) that comes into [being](#) either in this way or the other is a [result](#) of the [organisation](#). Metabolism

These [enzyme-catalyzed reactions](#) allow [organisms](#) to [grow](#) and [reproduce](#), maintain their [structures](#), and respond to their [environments](#). The word [metabolism](#) can also refer to the sum of all [chemical reactions](#) that occur in living [organisms](#), including [digestion](#) and the [transportation](#) of [substances](#) into and between different [cells](#), in which case the above described [set](#) of [reactions](#) within the [cells](#) is called [intermediary](#) (or **intermediate**) **metabolism**.
