

interplay

Schauberger

In reality there are **two mutually opposed fermentation processes** (forms of inner motion) that determine what is to be created from these **allotropic (polymorphic) fat-concentrates** entombed in the Earth along with the **cadaver**. **Decomposive** and **retrogressive energies** - the above **ptomaine radiation** - are active here, which are generated when the **reversed fermentation process** that produces **positively charged acids** is triggered by **thermal influences** which intensify **internal - rupturing - pressures**. This is further exacerbated by the **disintegrative** effect of **mechanics**, which bio-logic-ally speaking gives rise to reactivated **centrifugal motion**. It thus becomes clear that in **Nature** there are neither **equivalencies**, nor any constant **conservation of energy** or **matter**, but only **differentiations**, which mutually **potentiate** one another. **Robert Mayer, Isaac Newton** and others devoid of **intuition** - therefore **nature-alienated lawmakers** - have seriously erred (exact proof of this exists) inasmuch as in an eternally changing **Nature** there are actually no rigid **laws**, no **domas** or **absolutes**, but only a **rhythmical interplay** of energies, which determine the **fate** of all **existence**.^[17] This is because the products of this **interplay**, already in an **atomic state**, have an in-built capacity to **react**, and are therefore products of **biological development**. [The Energy Evolution - Harnessing Free Energy from Nature, Cadaverine Poison in Ray-Form - Ptomaine Radiation]

This **two-fold interplay** of **perpetual motion** can be directly observed and studied in deep, **cool cellars**, for through **differences in temperature**, what has grown large in the **Sun** and then reduced in size by **squashing**, will be moved 'cycloidally' in the **cellar**. First **refined**, then made 'cloudy', it slowly becomes **clear** after **termination** of this **adolescent period**. This is how wise **Nature** operates, who is known to have unlimited **developmental periods** at her disposition for all things. We, poor souls, to whom only a single, unique **life** is available in which we will also be forced to make use of **cycloid-space-curve-motion** in order to alleviate almost intolerable **reactive energies** through their **abreaction**, will have to behave more sensibly in order to become somewhat more **blissful** while still on this **Earth** than has been the case due to the efforts of 'active' **technicians**. In other words, we must **reverse** the way things are done. **Cycloid-space-curve-motion** must therefore be given pride of place, which logically leads to the almost **cost-free mechanical generation** of **reactive differences** in **potential**, which in turn give rise to increased and **intensified active differences** in **motion**. Harnessed once more, these **trigger** further **high-grade differences** in **potential** of a **reactive** nature, and so on and so forth until **temperatures** and **reactive forces** of such a kind are **triggered** that it is a veritable **art** to devise an operating **load** heavy enough to **brake** and **control** these **elemental suctional** and **pressural forces**. At the right time, therefore, we must keep our eyes open for the **specialists** and **experts**, who **function** as **super-brakes** on **development!!** Most certainly, however, we must replace those, who today **brake** the normal course of **development** with the **reversed interplay** of **forces**, which they do in such a way as to increase and **intensify** precisely those kinds of **energy** that promote **decomposition** and the **expulsion** of what is unsuitable for further **development**. In so doing they **trigger** a form of **perpetual motion**, because here too the **self-intensifying decomposive** and **repulsive forces** also increase by the **square** owing to the **cycloid-space-curve-motion** of the **Earth**. Sadly they do not see what they have themselves created, namely boundless **decline** and **disintegration** instead of an equally [The Energy Evolution - Harnessing Free Energy from Nature, New Forms of Motion and Energy]

This can be achieved when the **rhythmical process of motion** - an **interplay** between **components (sub-forces)** of **suction** and **pressure** - is **activated** in a manner in **accord** with **natural development**. That is to say, the **suctional component**, which **builds up the invigorating motive influence** prevails and **outweighs** the **fatigue-inducing pressural component**. [The Energy Evolution - Harnessing Free Energy from Nature, Magnetism - Electricism]

No present-day **scientist** can explain or understand the **quintessential nature** of 'motion'. From a **naturalesque** standpoint, this should be viewed as a **rhythmical metabolic interplay** between the **components** of **refreshing (cooling) suction** and **fatiguing (paralysing) pressure**; in other words, **two constituent forces** which as **reactive opposites**, **alternately (rhythmically)** act **mechanically (materially)** and **temperature-relatedly (physically)**. Therefore, depending on the **predominance** of either the **suction** or the **pressure component** (whether the **active force** is **material** or **physical** is unimportant), the **metaphysical formative force**, or the most **elemental destructive force** on this planet, comes into **being**. As the end **product** of a **natural** or **unnatural sequence** of **motion**, it will be

accelerated along either the longitudinal or the transverse axis. [The Energy Evolution - Harnessing Free Energy from Nature, Magnetism is the Function of Levitism, and Electricism is the Function of Gravitism]
