

life-creating current

Schauberger

It would take too long here to describe the necessary [preconditions](#) through which it is possible to build up the [energy-sources](#) (the 'higher' [temperature-forms](#)) out of which the [formative](#) and [levitative current](#) - characterised in the title as the '**life-creating current**' - comes into [being](#). [[The Energy Evolution - Harnessing Free Energy from Nature](#), [The Life-Current in Air and Water](#)]
