"Stripping the process of all technical terms, it is simply this: I take [water](#) and [air](#), two mediums of different [specific gravity](#) and produce from them by [generation](#) an [effect](#) under [vibrations](#) that [liberates](#) from the [air](#) and [water](#) an [interatomic ether](#). The [energy](#) of this [ether](#) is boundless and can hardly be comprehended. The [specific gravity](#) of the [ether](#) is about four times **lighter** than that of [hydrogen gas](#), the lightest [gas](#) so far discovered. I can best answer you intelligently by explaining the operations of the [gun](#) I used at [Sandy Hook Proving Ground](#). It was a breech loading [rifle](#) weighing 500 pounds. It was specially constructed for me. On Wednesday last I charged my tube, a five-gallon [reservoir](#) of wrought [iron](#), one and a half inches thick - with [etheric vapor](#). Then I boxed it up and did not ever test it, so I was certain of its powers. There, hours before the [experiments](#), it remained untouched in my shop. The [process](#) of [charging](#) it consumed less than four seconds of [time](#). [Keelys Etheric Vapor]

Bodies [heavier](#) than [water](#) [move](#) down the [centre](#). Bodies **lighter** than the [carrier-substance](#) [migrate](#) towards the [periphery](#), where they are [thrust](#) against the [wedge-shaped guide-vanes](#), which [deflect](#) them towards the [pipe-walls](#)[14].
