## Russell

"Mother and father reverse their [spectrum positions](#), however. The **womb** of the [mother](#) is on the inside and the [father](#) surrounds it by a ring, such as one sees in the [Lyra Nebula](#). One can also see the [birth](#) of a new [star](#) in the very [center](#) of that great [black cathode hole](#) which the **mother womb** is. That is the way that [God](#) turns the [anodes](#) of His [thinking inside out](#) to [rest](#), and [outside in](#) to again become [anodes](#). [God's process](#) of creating bodies through [sex interchange](#) is based upon the [sex](#) urge of the [divided color spectrum of light](#) to [void its color divisions](#) and become the [White Light of rest](#) from which its [tensions](#) were extended." [[Atomic Suicide](#), page 117]

"When [God](#), the [Father-Mother](#), divided the [Light](#) of His sexless [Oneness](#) into the [red light of the father](#), and the [blue light of the mother](#), He ordained that the [father light](#) must penetrate the [light of the mother](#), and be forever within her [womb](#) to [live](#), and without her [womb](#) to [die](#). Thus it is that the [red](#) fires which center our [father of earth](#), lie enfolded within the [blue](#) coolness of earth's crust, and the cooling blue oceans and atmosphere of the encircling **mother womb**. Thus it is that the [compression](#) of the **mother womb** generates [heat](#) to polarize and vitalize the [father seed of life](#) which is enfolded in that [womb](#). That process of [sex interchange](#) between the [blue and the red lights](#) which beget [life](#), continues to beget [life](#) to give back to its [Source](#) until the [mother](#) can no longer compress [life](#) into the [father](#), and the [father](#) can no longer [discharge heat](#) into the [mother](#) to continue to beget [father and mother bodies](#)."
