

polar negative attraction

Same as [Sympathetic Negative Attraction](#); See [Polar, Negative Attraction](#), [polar negative attractive force](#)

Keely

The Neutralization of Magnets

"Thus, either present [elements](#) are the true [elements](#), or else there is the probability before us of obtaining some more high and general [power of nature](#), even than [electricity](#), and which at the same time might reveal to us an entirely new grade of [matter](#), now hidden from our view and almost from our suspicion. - [FARADAY]

Question. How can a [magnet](#) be robbed almost instantaneously of its [magnetic power](#)?

Answer. The peculiarity of the [sympathetic conditions](#) which [conserve](#) a [magnet](#) to [polar and anti-polar currents](#) of the [earth](#), prove perfect [sympathetic equation](#) between [reception and distribution](#) in that part of the [electrical field](#) which is classified, in [my system](#), as [interatomic vibratory oscillation](#).

This [oscillation](#) represents, in its [corpuscular field of action](#), an [alternating wave-motion](#) of one hundred and twenty-eight thousand four hundred vibratory exchanges per second, between [polar reception and depolar distribution](#), thus establishing its perfect [sympathetic concordance](#) to that [third](#) of the [electric triple stream](#) which represents the [sixths](#) in [vibratory sympathetic physics](#). The [sympathetic action](#) of the [magnet](#), when [electrically sensitized](#), becomes [subservient](#) to [polar attraction](#) as a [medium](#) through which a portion of its [flow](#) is [diverted](#); no longer [latent](#), but highly [active](#) as long as its [magnetic sympathy](#) (as [electrically induced](#)) continues, and it will then [associate](#) itself with every [medium](#) in [nature](#) in which this [element](#) exists in its [latent state](#), from [steel](#) to [oxygen](#) at a low [temperature](#).

We have now reached a starting-point from which to obtain a [conception](#) of the manner in which a [magnet](#) can be [neutralized](#), that is, robbed of its [coincident unity](#), or [subservience](#) to **polar negative attraction**." [The Operation of the Vibratory Circuit]

"True [philosophy](#), when reached, said [Professor George Bush](#), will conduct us into the [realm](#) of the [spiritual](#) as the true region of [causes](#), and will disclose new and unthought of [relations](#) between the world of [matter](#) and of [mind](#).

It is these unthought of [relations](#) which [Keely's system](#) of [sympathetic physics](#) brings to [light](#); opening out a [field](#) for research which lies beyond the boundaries of our present [knowledge](#). As yet he has been unable to satisfy his own penetrating [mind](#) in regard to all the [hypothesis](#) which his various [discoveries](#) have led him into formulating. He has himself, in his search for [truth](#), pursued the wrong path too often, and made too many [errors](#), not to welcome refutation of them, and acknowledge his [mistakes](#) when brought before him.

The title which he has given to the [latent current](#) of the [triune polar flow](#) that he discovered in 1872, "**polar negative attraction**," undoubtedly conveys the idea that this [flow](#) is an [agent](#) closely allied to [magnetism](#); but such is not the case.

This [latent element](#) exists in the [interstitial conditions](#) of all [nature's triple streams of force](#); in [electricity](#), in [magnetism](#), in [gravity](#); and is the [dominant current](#) in each of these, maintaining a [sympathetic relation](#) to the high or [compound luminous](#), which manifests itself when the proper [mechanical requirements](#) are used. It is entirely foreign in [character](#) to the elements now in commercial use. Researchers will always find before them a [limitless beyond](#), [comprehended](#) only by the [Infinite One](#)." [Veil Withdrawn]

"*Magnetism is not polar negative attraction, any more than polar negative attraction is magnetism, for polar negative attraction shows positive sympathetic outreach, of a high order, which is a condition entirely foreign to magnetism.* [SYMPATHETIC OUTREACH - Snell]

"The terms "[neutral attraction](#)", "[neutral affinity](#)", "[negative attraction](#)", or "**polar negative attraction**", are employed to express the property of a [mode of vibration](#) to direct its components towards such [center](#). [KEELY'S

"*Sympathetic Negative Attraction* is the same as *cohesion*. It is not the resultant of electrical *sympathization*, but it includes the full *triune flow*, the *Dominant* being the leader and associate of the *celestial*. The *sympathetic outreach* of *negative attraction* is the power that holds the planetary masses in their orbital ranges of oscillatory action. *Magnetism* has no *Outreach*, but it pervades all *terrestrial* masses, all planetary masses. It is highly electrical in its character, in fact, *magnetism* is born of *Electricity*, whereas *negative attraction* is not, but it has a *sympathetic outreach* for *magnetism*. *Magnetism* is *static*. *Sympathetic Negative Attraction* reaches from planet to planet, but *Electricity* does not, nor does *magnetism*. *Sympathetic Negative Attraction* is born of the *celestial*, and impregnates every *mass* that floats in *space*, seeking out all magnetic or electric conditions, and all these masses are subservient to *celestial outreach*. All the magnets in the world could not induce *rotation*, no matter how differentiated, but **polar negative attraction** induces *rotation*." Keely, [Snell Manuscript]

"The ring was then centered on a steel shaft and revolved at 2000 revolutions per minute, surrounded by the "triple circuit ring." If the *indicator* in the "circuit ring" varied 5 degrees out of a possible 8,000, the ring had to be corrected until it varied by no more than 3 degrees, which could be considered perfect enough, since the *circular tubular resonator* could then hold the *neutral focalization* intact during the *graduation* of the *full ninths*, for *sympathetic association* to produce **polar negative attraction**." [RESONATING RINGS, Snell Manuscript]
