

posterior parietal lobule

All abnormal *discordant aggregations* in these resonating *convolutions* produce *differentiation to concordant transmission*; and according as these *differentiations* exist in volume, so the transmissions are discordantly transferred, producing *antagonism* to pure physical action. Thus, in *motor ataxy*, a *differentiation* of the *minor thirds* of the **posterior parietal lobule** produces the same condition between the retractors and extensors of the leg and foot, and thus the control of the proper movements is lost through this *differentiation*. The same truth can be universally applied to any of the *cerebral convolutions* that are in a state of *differential harmony* to the mass of immediate *cerebral* surroundings. Taking the *cerebral* condition of the whole mass as one, it is subservient to one general *head centre*; although as many *neutrals* are represented as there are *convolutions*. The *introductory minors* are controlled by the *molecular*; the next *progressive third* by the *atomic*; and the *high third* by the *etheric*. All these progressive links have their *positive, negative, and neutral position*. When we take into consideration the structural condition of the human *brain*, we ought not to be bewildered by the infinite variety of its *sympathetic impulses*, inasmuch as it unerringly proves the true philosophy that the *mass-chords* of such structures are governed by *vibratory etheric flows*. There is no structure whatever - animal, vegetable, or mineral - that is not built up from the cosmic *ether*. Certain *orders* of *attractive vibration* produce certain *orders* of structure; thus the infinite variety of effects; more especially in the *cerebral organs*. *Discordance* cannot exist in the molecule proper. *Discordance* in any mass is the result of differentiated groups induced by *antagonistic chords*, and any *differentiated mass* can be brought to a condition of *harmony* or *equation* by proper *chord media*, and an *equated sympathy* produced whether the *mass* be metal or *brain*.
