

# power of one

"I have referred to a concept I describe as the **power of one**, the power that results from individual expressions of the [Infinite Mind](#) as they come into recognition of their absolute unity - the [infinite](#) expression of [wholeness](#), or one. It is this [truth](#) when fully grasped that will allow you to recognize your [individuality](#) in the whole, as the whole, expressing the whole and coincidentally being wholly, uniquely you.

"[Individuality](#) more appropriately deals with the continuing unfoldment of the [Mind of God](#) in a multitude of loving expressions." [[Dialogue on Awakening](#), page 238]
