Schauberger

Now comes a brief [description](#) of Nature's principal [formative substance](#) - [metaphysical fatty-matter](#)[8] - about which a thick book could be written. As a [reactive](#) or 'higher' [temperature-form](#) this comes into [being](#) with the aid of the Earth's '[cycloid-space-curve-motion](#)' under the [exclusion](#) of [light](#) and ordinary [heat](#) in the [cool germinating zone](#), the [boundary zone](#) between the [negatively potentiated geo-atmosphere](#) and the [positively potentiated external atmosphere](#). This then [develops](#) as a [potential](#) that **propagates** horizontally in a [wavi-linear movement](#). [[The Energy Evolution - Harnessing Free Energy from Nature, The Life-Current in Air and Water](#)]

This also explains why the very [moment](#) that [watercourses](#) were [hydraulically](#)[9] regulated, i.e. when the [natural system](#) of [flow](#) was ruined, the [calamity](#) concerning the [transport](#) of [sediment](#) began.[10] The [riverbanks](#) were attacked, the [riverbed](#) [silted](#) up and the [water](#) [ejected](#) itself from its dislocated [course](#) with [elemental ur-force](#) in order to regain its [naturaesque form](#) of [motion](#), through which that something is also **propagated** and [deployed](#) to which [[The Energy Evolution - Harnessing Free Energy from Nature, The Life-Current in Air and Water](#)]

is first [generated](#) through [friction](#). This [heat](#) is immediately [absorbed](#) by the [water](#) and in the [process](#) a physical [vacuum](#) is created, which then gives rise to the [emergence](#) of [inner-atomic rays](#). Due to the [absorbed heat](#), the [free, dissolved oxygen](#) still present in the [water](#) becomes [aggressive](#) and the [emergent geospheric rays](#) become [aggressive](#) owing to the presence of the [vacuum](#). Through the encounter between the [mutually opposed, contra-directionally](#) **propagated**, [excited rays](#), the [precondition](#) for the [marriage](#) is created. The [child](#) of this [union](#) is [organic](#), or [cold light](#). [[The Energy Evolution - Harnessing Free Energy from Nature, Letter to Werner Zimmermann](#)]
