retrogressive

adjective: returning to a condition or state that is worse than the present one, instead of improving or making progress

In reality there are [two mutually opposed fermentation processes](#) ([forms of inner motion](#)) that determine what is to be created from these [allotropic \(polymorphic\) fat-concentrates](#) entombed in the [Earth](#) along with the [cadaver](#). [Decomposive](#) and **retrogressive energies** - the above [ptomaine radiation](#) - are active here, which are generated when the [reversed fermentation process](#) that produces [positively charged acids](#) is triggered by [thermal influences](#) which intensify [internal - rupturing - pressures](#). This is further exacerbated by the [disintegrative](#) effect of [mechanics](#), which bio-logic-ally speaking gives rise to reactivated [centrifugal motion](#). It thus becomes clear that in [Nature](#) there are neither [equivalencies](#), nor any constant [conservation of energy or matter](#), but only [differentiations](#), which mutually [potentiate](#) one another. [Robert Mayer](#), [Isaac Newton](#) and others devoid of [intuition](#) - therefore [nature-alienated lawmakers](#) - have seriously erred (exact proof of this exists) inasmuch as in an eternally changing [Nature](#) there are actually no rigid [laws](#), no [domas](#) or [absolutes](#), but only a [rhythmical interplay](#) of energies, which determine the [fate](#) of all [existence](#).^[17] This is because the products of this [interplay](#), already in an [atomic state](#), have an in-built capacity to [react](#), and are therefore products of [biological development](#). Just a slight [positively surcharged motive](#) or [stimulative influence](#) is enough to [discharge](#) the [blood](#) of the [Earth](#), the extremely [pressure-sensitive accumulator](#) of the true [life-forces](#) in [statu nascendi](#), which it accumulates in order to [transform](#) them into [reactivated formative \(levitative\)](#) or [disintegrative \(retrogressive\)](#) energies. [[The Energy Evolution - Harnessing Free Energy from Nature, Cadaverine Poison in Ray-Form - Ptomaine Radiation](#)]

'Conventional' [science](#) and [fire-spitting technology](#) naturally do this very differently, indeed in a diametrically opposed fashion. They exploit [hot processes](#) of [oxidation](#) as the [developmental basis](#) for the [build-up](#) of a [decomposive](#) and **retrogressive force**, which in [Nature](#) is employed for the recall for [reconstitution](#) of what is unfit for [development](#). No wonder therefore that this type of [force](#) reacts, with [resistances](#) that increase by the [square](#), against the [insanity](#) of its wrongful [exploitation](#) for the purposes of the [build-up](#) of [culture](#). Therefore the crowning [law](#) of today's [technology](#), the [conservation of energy law](#) and the so-called [heat equivalent](#) are founded on an unnatural [developmental basis](#). To put it plainly, contemporary [science](#) and its [technology](#) have backed the wrong horse and have ridden it for so long, or have sacrificed the available [raw materials](#) to [power](#) precisely the opposite [force](#) to such an extent as to drag in an [economic collapse](#) by its head and shoulders. It has not understood how to copy the ideal [method of generating power](#) and [formative energy](#), or through the [naturalesque transformation](#) of inferior [raw materials](#) into [quality products](#), how to make the [natural sources of energy](#) available in unlimited [quantity](#) for a virtually [free](#), silent and [development furthering mechanical power](#). [[The Energy Evolution - Harnessing Free Energy from Nature, New Forms of Motion and Energy](#)]

already very shaky scientific edifice would come tumbling down, if the full scope of the [reactive energy economy](#) should become known too quickly. An [upheaval](#) of such a kind would then arise, which could not be endured in these days of [food](#) shortages, and the baby would be thrown out with the bath-water by those, who have only one idea left: somehow to struggle through [life](#) and to be [free](#) of all problems. Were this implemented, however, then the most marvellous things would come to [life](#) again, which compared to the present [world](#) situation would be a [paradise](#). The trick therefore is - how do I tell the innocent children that the end has come for all manner of [lusts](#) for [power](#), because a [natural power](#) is now appearing, before which everything else must unconditionally capitulate. Today this new [power](#) rejoices over the victory, which was brought about by the fact that the [Germans](#) - and this can be examined from any desired viewpoint - were unfortunately the best exponents of a [technology](#) founded on [faecal matter](#). Unhappily they exploited precisely those [expulsive energies](#) that enable us, for example, to rid ourselves of those [substances](#) so vital to the [Earth](#) for maintaining the eternal [renewal](#) of

her [motive forces](#). With the aid of these earthly and other [waste materials](#) she recreates everything anew, which our evolutionally older descendants absolutely require for their various necessities of [life](#). For this reason wise [Nature](#) will not hesitate much longer before she clears everything off the green [dissection-table](#) with a single sweep of the hand, as it were, upon which, using [decimal scales](#) and an [inch ruler](#), attempts were made to discover the '[essence](#)', namely, that which provides for the [weight](#) and [measure](#) of all things. And thus, instead of specific [elements](#) they found absolutely [heavy remnants](#), which they then declared to be '[atoms](#)'. That these [remnants](#) of a former [organic whole](#), which have been artificially rendered [potential-less](#) (stripped of [life-force](#), so to speak), interact in a lively fashion, is quite obvious. Under no circumstances, however, do the [products](#) of [synthesis](#) that produce higher [quality products](#) come into [being](#) in this way, but only [active forms](#) of [heat](#) and [cold](#). These promote the [process](#) of [decay](#) through further [interactions](#), which in turn give rise to the [decomposive](#) and **retrogressive** [factors](#) that promote an [accelerated disintegration](#) as well as the [annihilating energies](#) that [intensify](#) by the [square](#). That these [energy-forms](#), which foster [decomposition](#) and are possessed of a [force](#) of [resistance](#) that [increases](#) by the [square](#), contradict the irrational assumption that they actually further the [build-up](#) of [culture](#), is perhaps only incomprehensible to those who know nothing of the specific [counter-elements](#) and who, because of a tragic [error](#), established the crowning [law of contemporary technology](#), such that under all circumstances the [resistance](#) must [increase](#) by the [square of the velocity](#). The specific [counter-form](#), the [upward](#) falling [weight](#) as it were, comes into [being](#) when [etherialised substances](#) are transferred to the 4th dimension. This happens, due to the fact that [negatively potentiated constituents](#) of [carbonic](#) [The Energy Evolution - Harnessing Free Energy from Nature, The Economy Founded on Reactively Produced Energy]
