Water Supply

The application of this [form](#) of [motion](#) would bring about the [revivification](#) of sluggish, [stale](#), tired, [fish](#) deficient, bacterially polluted brooks, [streams](#) and [rivers](#) through the artificial [reinstatement](#) of [cycloid-space-curve-motion](#) in draining [water](#).^[3] In other words, the [reconfiguration](#) of [truncated](#) and [straightened channels](#) in which the more exalted [formative](#) and [transformative processes](#) can no longer occur, due to the absence of [cycloid motion](#). Therefore the [stocks](#) of basic [allotropic heat-imparting substances](#) are no longer [consumed](#) ([bound](#)) and the improperly regulated [watercourses](#) inevitably become [warm](#), [stale](#), [devoid](#) of [fish](#) and [infected](#) with [bacteria](#), because the **revivifying** [form](#) of [motion](#) is missing or has been [disrupted](#) or [eliminated](#) by smooth-walled [bank rectification](#). [[The Energy Evolution - Harnessing Free Energy from Nature, The Practical Application of Cycloid-Space-Curve-Motion arising from Processes of Cold Oxidation](#)]

Cayce

"As the [Truth](#) flows as a [stream](#) of [life](#) through the [Mind](#) and [purifies](#) same, so will it [purify](#) and **revivify** and [rejuvenate](#) the [body](#)." [Cayce 294-183]
