

segregation of nervous matter

Keely

"If all [cosmical action](#) is cyclical, [matter](#), when existing [free](#) in the [ether](#), must ultimately tend to [dissolve](#) into pure [ether](#) again, for, if the [law of creation](#) is as a [cycle](#), in which, after [development](#) and as its [fruit](#), the last term gives the first, then has he grounds for his [conjecture](#) that [complication](#) in [structure](#) is necessary to the **segregation of nervous matter**, and the [construction](#) of a "[myo-neuro-cerebral system](#)" and that [ether](#) and [matter](#), after developing a [molecular economy](#), as the [mother](#) and nurse of a [soul](#) or [monad](#) of a higher [order](#) than the merely [material element](#), through or by this [organism](#), complete the [cycle](#) of the [economy](#) of [material nature](#), and eventually touch upon the [spiritual world](#) again and contribute to it. This true [protoplasm](#), the [ether](#), [Keely](#) claims to ... [liberate](#) by [vibratory machinery](#) as the [medium](#) of a [motive power](#), which he calls "[sympathetic negative attraction](#)." [Snell Manuscript - The Book, page 2] [[cosmical action](#)]
