"Mother and father reverse their [spectrum positions](#), however. The [womb](#) of the [mother](#) is on the inside and the [father](#) surrounds it by a ring, such as one sees in the [Lyra Nebula](#). One can also see the [birth](#) of a new [star](#) in the very [center](#) of that great [black cathode hole](#) which the [mother womb](#) is. That is the way that [God](#) turns the [anodes](#) of His [thinking inside out](#) to [rest](#), and [outside in](#) to again become [anodes](#). [God's process](#) of creating [bodies](#) through [sex interchange](#) is based upon the [sex urge](#) of the [divided color spectrum of light](#) to [void](#) its [color divisions](#) and become the [White Light of rest](#) from which its [tensions](#) were extended." What [triggers](#) this [reaction](#) is the well-known [dynamics](#) of the [sexual urge](#), which [re-establishes equilibrium](#) between intolerable [differences](#) in [tension](#) and [potential](#). Because these [differences](#) are always present, this original [form](#) of [movement](#) will constantly be provoked by a [motivating force](#) that never [waned](#). As a [form](#) of [motion](#), we are here primarily concerned with the [motion](#) that the [Earth](#) has demonstrated to us since the beginning of time. Referred to as '[cycloid-space-curve-motion](#)', it is synonymous with what the naturalistic doctor calls the '[life-creating life-spiral](#)', and the [biotechnologist](#) calls '[double screw-form wave motion](#)'. Rudolf Steiner

"As for compassion and love, roughly to put, one can talk about the program spiritual science has to implement in the future. In this regard, materialism has developed a dangerous science that has never existed on Earth. The worst offense that seems today is the linking of love and sexuality. It is the worst possible expression of materialism, the most diabolical symptom of our time. Sexuality and love have nothing in common. Sexuality is something completely different and has nothing to do with pure, genuine love. Science has brought things to an embarrassing state through extensive literature that deals with connecting these two things that are simply not connected."
