## Schauberger

From experience the preparation of organic [precious metals](#) is only successful under the influence of a falling [temperature gradient](#), because only thus can higher-grade [emulsions](#) take place; something that I have tried and tested myself. Dr [Zuckermandl](#), a forensic scientist who presently lives in Paris, analysed [organic metals](#) that I had [ur-produced](#) as long as 20 years ago. To his huge astonishment, he confirmed my assertion that metals of all kinds actually grow. This should be understood as the [incarnation](#) of [ions](#), which for the first time correctly explains the generally accepted concept of '[growth](#)'. This involves the **solidification** of stocks of [bipolar dynagens](#) under the influence of gentle and diffuse [heat](#) (viz. the highly metalliferous [egg-shaped](#) stones, for example, which emit a golden [yellow glow](#) even when rubbed together under [water](#) - the legendary [Rhinegold](#) and [Gold of the Nibelungs](#). This has nothing to do with [flints](#), which in any case do not [spark](#) under [water](#).) [[The Energy Evolution - Harnessing Free Energy from Nature, The Catalysts](#)]

In a word, after decades-long [observations](#), [trials](#) and series of [experiments](#), I succeeded in getting to the bottom of this mysterious [double-game](#) of [Nature's](#) and in becoming aware of the unspeakable [ferocity](#) and purest [mother-love](#) that are united behind her [two eternally concealed faces](#). I came to recognise the [scales](#) of [fate](#) of all [life](#) upon which every [action](#) is scrupulously weighed after [death](#) and that whatever is no longer fit for the next higher [evolutive progression](#) is once more ruthlessly [eliminated](#), it being of too [inferior](#) a [quality](#) for its [metaphysical transformation](#) into exalted [entities](#) in the [form](#) of the above [formative](#) and [levitative current](#). It has to return to greater or lesser [depths](#) within the [Earth](#) to [interact](#) with those [vibratory influences](#) in such a way that out of these [basic substances](#) new [formative](#) and [levitative energies](#) evolve for a renewed attempt to [rise](#). It is these [revitalised substances](#), whose higher [forms](#) of [cooling essences](#) possess [expanding](#) and [upwardly impelling functions](#), which make this [resurrection](#) possible. [Falling](#) and [concentrating light-](#) and [heat-forms](#) then

subsequently ensure the **intermediate solidification** of 'what is destined to **vegetate**', namely the actual physical **form** of **growth** in which the **counter-energies** also reside, which initiate the further **interactions** that enable this **intermediate assembly** of **raw materials** to **grow**, to **reproduce** and further **evolve** itself. [The Energy Evolution - Harnessing Free Energy from Nature, The Life-Current in Air and Water]

In order to round off this understanding, the **concept** of 'mass' (**matter**) must also be explained in greater detail. **Mass** is here to be understood as the **product** of **tripolar motion**. It represents the partial **solidification**, as it were, of a **motive force** that is **latent** in a **neutral carrier-substance** and which to a certain extent acts as the **resistance** to possible **inner motion** (**vibration**). [The Energy Evolution - Harnessing Free Energy from Nature, Magnetism is the Function of Levitism and Electricism is the Function of Gravitism]

The more strongly the **attracting forces** become **active** in the **developmental process**, the greater the **quantity** of **ennobled magnetolytes** (**ascended** and **magnetically supercharged ions**) that soar **upwards** with their **adherents** and the greater the **quantity** of less valuable **substances expelled** by the **highest-grade elements** which have to **solidify** under the **effect** of the **counter-influences** described earlier. And thus through the proper **regulation** of these **magnetolytic dissociative processes**, the **increase** and **qualitative improvement** of the aforesaid **product** of **solidification**, or **growth**, can be **enhanced at will**.
