

sympathetic leader

"Physicists have been working in the wrong direction to lead them to associate themselves with Nature's [sympathetic evolutions](#). It is not necessary to advance farther into the unexplored region of these [sympathetic flows](#) than the [ninth](#)s, to become convinced that the one I denominate the [dominant](#) is the leader toward which the remaining [thirds](#) of the triune combination (of triple [sympathetic streams](#)) co-ordinate, whether it be the [cerebellic](#), [gravital](#), or magnetic. When we reach the [luminiferous track](#) on the [ninth](#)s, in the [triple subdivision](#), we have proof that the [infinite](#) stream, from that unexplored region where all [sympathetic streams](#) emanate, is triune in its character, having the [dominant](#) as the **sympathetic leader**, to which the remainder of the [celestial thirds](#) are subservient; the [cerebellum](#) being the [dominant](#), and the triplets (gravital, electric, and magnetic) following in its train."
