

transverse axis

Schauberger

If this [current](#) is conducted into [vacuum tubes](#), then they emit a strongly [pulsating blood-red glow horizontally](#) along the [elongated **transverse axis**](#) and a dazzling, motionless, colourless and temperatureless [radiance vertically up the elongated longitudinal axis](#), which fills the whole [space](#). [[The Energy Evolution - Harnessing Free Energy from Nature, The Life-Current in Air and Water](#)]

No present-day [scientist](#) can explain or understand the [quintessential nature](#) of 'motion'. From a [naturalesque](#) standpoint, this should be viewed as a [rhythmical metabolic interplay](#) between the [components](#) of [refreshing \(cooling\) suction](#) and [fatiguing \(paralysing\) pressure](#); in other words, [two constituent forces](#) which as [reactive opposites](#), [alternately \(rhythmically\)](#) act [mechanically \(materially\)](#) and [temperature-relatedly \(physically\)](#). Therefore, depending on the [predominance](#) of either the [suction](#) or the [pressure component](#) (whether the [active force](#) is [material](#) or [physical](#) is unimportant), the [metaphysical formative force](#), or the most [elemental destructive force](#) on this planet, comes into [being](#). As the end [product](#) of a [natural](#) or [unnatural sequence](#) of [motion](#), it will be [accelerated](#) along either the [longitudinal](#) or the [transverse axis](#). [[The Energy Evolution - Harnessing Free Energy from Nature, Magnetism is the Function of Levitism and Electricism is the Function of Gravitism](#)]

In the [unnatural, degenerative direction](#) of [acceleration](#), which operates along the [transverse axis \(centrifugally\)](#), i.e. in an [axial->radial mode](#), the [magnetism \(= levitism\)](#) here acts as the [resistance](#). Compared to the [counter-flowing electricism](#), it appears to be in a certain [state of rest](#), the [magnitude](#) of its [resistance](#) or [support increasing commensurately](#) with the [acceleration](#) of the [downwardly flowing electricism \(= gravitism\)](#). This is the [origin](#) of the tragic [misconception](#) that in all [motion](#) the [resistance increases](#) by the [square](#) of the [starting velocity](#). However, in [reality](#) this only happens when any given [mass \(matter\)](#) is made to move [technically, hydraulically or dynamically](#)[2], i.e. [axially->radially \(centrifugally\)](#), therefore [unnaturally](#). For if any given [mass \(matter\)](#) is made to move [radially->axially \(centripetally\)](#), then the [upwardly flowing magnetism \(levitism\)](#) [increases](#) at the expense of the [disintegrative \(destructive\) electricism \(gravitism\)](#) and thus the [naturally ordained formative and levitative forces intensify](#) in [proportion](#) to the [starting \(radial->axial\) rotational velocity](#). With this [type of motion](#), which is of course only possible with very special [motion-inducing shapes \(profiles\)](#), the effective [performance](#) amounts to about 96%. In this case only about 4% of the [original formative energies](#) are lost in [producing](#) the [resistance to motion](#) required by [Nature](#). In [technical, hydraulic and dynamic motion](#) precisely the [opposite](#) is the case and this is how the enormous [consumption of fuel](#) came about, which is exclusively expended in a manner [destructive of Nature](#). [[The Energy Evolution - Harnessing Free Energy from Nature, Magnetism is the Function of Levitism and Electricism is the Function of Gravitism](#)]
