

universal equilibrium

Universal [depolar state](#).

Russell

"*Matter is an abnormality. The normality of this universe is a condition of [rest](#) - an [equilibrium](#). [Matter](#) is not an [equilibrium](#). It is a created condition which divides a [resistant equilibrium](#). That division results in tremendous [tensions](#). [Tensions](#) are not normal to the **universal equilibrium**. [Tensions](#) have within them a great [desire](#) for relief from [tension](#). Decay, [death](#), [discharge](#), [explosions](#) and [flame](#) give matter that relief from [tensions](#) which it desires. Bear this fact in mind. Remember that the first [desire](#) of all [Creation](#) is Mind-expression by [division](#) of the **universal equilibrium**. Remember also that the [desire](#) to again return to the normal **universal equilibrium** is equally intensive. To divide an [equilibrium](#) requires work. To return to the normality of the **universal equilibrium** does not require work. Bear in mind, then, that it is hard to live but easy to die. [Radioactivity](#) is making it harder for bodies to live by releasing the [tensions](#) which makes them die.*" [Russell, [Atomic Suicide](#), page 15]

THIS RADIAL UNIVERSE

The entire [mechanical principal](#) of Nature, by means of which its [light illusions of motion](#) are produced, is the consequent effect of such [radial extensions](#). Because of it, the seeming [multiplication](#) and [division](#) of the **universal equilibrium** into the [opposed electrical pressures of gravitation and radiation](#), which form the foundation of this universe of [change](#), are made possible. (Fig. 3)

[God's imaginings](#) extend from [rest](#) to [rest](#) in His three-dimensional [radial universe](#) of [length](#), [breadth](#) and [thickness](#) - to become the [stage of space](#) for His imagined [radial universe](#) of [matter](#), [time](#), [change](#) and [motion](#). (Fig. 4)

[Points of rest](#), further extended to other [points of rest](#), form [three reflecting planes of still magnetic Light](#) which are at [right angles](#) to each other. (Fig. 4) From the [center](#) of these [three mirror planes of zero curvature](#), [God's givings](#) are radially projected to [six opposed mirror planes](#) for [reprojection](#) as [regivings](#), to unfold

and refold the forms of [God's imaginings](#) in the [curved electric universe](#) of His desiring. (Fig. 5)" [The Secret of Light, PART III: Omnipresence The Universe of Being Postulates and Diagrams, page 219-220]

Opposite [poles](#) of a [bar magnet](#) thrust away from each other as far as they can go. That is the very purpose of the [electric current](#) which divides the **universal equilibrium**. If opposite [poles](#) attracted each other they would have to be together in the [middle](#), instead of "pushing" away from each other to the very ends. [A New Concept of the Universe, page 18]

Christ Returns - Speaks His Truth

"For you to fully understand what I am talking about, I want you to strive to VISUALISE & REALISE that the Nature of [Divine Consciousness](#) of Universal Equilibrium is limitless Power, since the [equilibrium-harmony](#) arises out of equal [constraint](#) between the [universal impulses](#) of the: the [male](#) and [female](#), [intelligence](#) and [love](#), the [will](#) to experience and the [will](#) to remain acquiescent, the [yearning](#) to be [active](#) and the [yearning](#) to hold back and maintain the status quo, in order to form bonds and stability."
